FOR IMMEDIATE RELEASE

February 1, 2011

MAKAD ENERGY, LLC ANNOUNCES APPOINTMENT OF ANDREW STECKLEY AS VICE PRESIDENT AND CHIEF TECHNOLOGY OFFICER.

VANCOUVER, WA – Makad Energy, LLC (“Makad Energy”) announced that Andrew Steckley has been appointed Vice President and Chief Technology Officer of Makad Energy.

Dr. Steckley has over twenty years experience in applied engineering and software architecture and development. He has designed hardware and software systems for public and private sector applications, and is the author of several papers in the fields of data acquisition, wind engineering, and risk assessment. He has founded two engineering research firms and designed and deployed field data acquisition systems for environmental monitoring at petrochemical plants. Dr. Steckley has performed advanced research and software development for such clients as the DoD, FEMA, Florida Power & Light, and the State of Florida. He holds advanced degrees in Aerospace Engineering and Civil Engineering from the University of Toronto and the University of Western Ontario.

Mr. Elie Makad, Makad Energy’s Chairman, and Chief Executive Officer, said, “Dr. Steckley provides leadership and innovation to our technology development team. We are excited to have him join Makad Energy.”

About Makad Energy:

Makad Energy was formed in 2009 to develop new technologies in the field of energy conservation and renewable energy, including the development and construction of renewable energy generation facilities and biorefineries as well as the potential of trading in carbon credits and other renewable energy instruments. Makad Energy is an affiliate of Makad Corp. and a member of the Makad Global Team.
